Relevant Project Work

Job Hazards Analysis, Occupationa Health and Safety Department, Parmalat Rakely (2015)

• Took the lead interviewing employees to assess risk on the five warehouse functions, rating them in terms of severity and likelyhood in a Risk Management Matrix.

Lockout Tagout, Health and Safety Committee, Parmalat Canada, Rakely (2005 - 2006)

• Liaised with maintenance, machine operators, the JHSC and the Plant Director to move valves and switches finding the balance between practicality, productivity and safety

Skills

Analytical

• Introduced ABC Inventory Analysis to weekly reports to the Warehouse Management Team

Did you mean: Silvio Kusakawa? Top result shown

Skills

Analytical

• Consolidated inventory information from BW reports, FuturMaster and SAP live data into a single file to outline replenishment data from Rakely to MDC

Planning

- Flexible break strategy to handle rush orders
- Loads are temperature tested and audited prior to driver arrival on site
- Used forecast data and JIT techniques to move from a demand push strategy to demand pull, achieving savings in transportation costs and improving our fill rate

Problem Solving

- Used Pareto Charts to categorize customer claims, and separeted errors by employee and time of day
- Introduced KG quotas as targets in order to project labour requirements on weekends and achieved OT savings
- CHEP pallet reconciliation: identified several root causes for discrepancies and improper reporting in our pallet portfolio

Execution

- Managed internal audit corrections
- Created a template to handle our recall process, improving our response time from 3-4 hours to 15 minutes

Languages

Fluent in English and Portuguese
